

PLC WHICH LAWYER 2006

Yearbook 2006 - 11th Edition

The 2006 Edition of the PLC Which Lawyer? Yearbook covers the global legal market in even more jurisdictions than the previous editions in the interest of providing practical information and market intelligence to anyone doing business outside their own jurisdiction. We have also expanded our coverage of practice areas in many jurisdictions as those legal markets become increasingly sophisticated. Our law firm and lawyer recommendations are based on independent research conducted throughout the year.

The symbols and recommendations in the main article are based on a survey of corporate counsel and on research conducted by the editorial team. This information is subjective and does not purport to be complete. Absence of either symbol, or the omission of any firm from the list, does not indicate that the firm does not practice in the areas, nor that it is not highly regarded. You should verify information by talking to colleagues before committing to any firm.
